Maysville High School Received  
Sheep Skins at B. I. Hunt  
Commencement

E. L. Powell Delivered Force-  
ful Address—23 Graduates

The crowning event of the closing  
week of the Maysville public schools  
took place last evening when the grad-  
uating class of the High School received  
their diplomas with appropriate ac-  
companying ceremonies. Despite the  
terribly hot weather the auditorium was  
filled with people.

The graduating class has twenty three  
members, the largest in the history of  
the Maysville High School with the ex-  
ception of the class of 1913 which was  
composed of the same number. Mays-  
ville people have abundant cause to feel  
proud of her High School and class of  
'14 this morning.

The stage of the auditorium was occu-  
pied by the speaker of the evening,  
officials of the school and the  
members of the graduating class who  
wore their gray gowns and sombre spirit

## HARD TIMES AS A POLITICAL ISSUE.

Mr. Roosevelt intimates that the wicked Democrats are responsible for the prevailing hard times: This is awful! It is true that we had a panic when Roosevelt was President; it is true that what ever tremors have afflicted the business world since Wilson was elected are mild in comparison with what would have followed a Roosevelt victory of 1912. But Roosevelt comes back from a long trip in the South American jungle; he confesses that he knows little of conditions at home, yet fires away at Wilson as a matter of routine. We had cherished an idea that the day for that kind of blind partisanship passed some time ago!

We have had Democratic hard times and Roosevelt hard times. Leaving out of account the Roosevelt administration, who can remember a Republican panic? The only party that has any license to make an issue of prevailing industrial conditions is the party which, whatever its faults of omission or commission during long years of complete control of the National Government, never made the creation of panics a specialty.—Times-Star.

## A BANNER WITH A STRANGE DEVICE.

It seems that our peculiarly patriotic (?) Administration at Washington is seriously considering whether or not to award to British manufacturers the contract for supplying the American army with American flags. British bids are some \$4,000 or \$5,000 lower than American bids for the contract. It is astonishing that even the neo-Americanism characteristic of American Free-Traders should dream of going to such a length as that of having Old Glory furnished by foreigners. It is "the end of the limit!" Charles Heber Clark, speaking recently at a testimonial dinner tendered to Nathan T. Folwell at the Manufacturers' Club in Philadelphia, sounded the right note when he said:

I would rather pay \$10,000 for every stripe and \$10,000 for every star of Old Glory than have that sacred banner for our army and navy made abroad.

It would be a sight for gods and men to see American soldiers marching under American banners bearing the strange device, "MADE IN ENGLAND!" But everything that is un-American seems possible with Free-Traders.

It has been reported that a cargo of 22,000 cases of Mr. Wilson's Free-Tariff eggs have arrived from Hongkong, China. This makes the wife of the Democratic farmer stop and wonder how long John is going to continue to vote this upon her.—Carrollton (Mo.) Republican Record.

## SOME HOT WEATHER AMENITIES.

"Henry Watterson says that the Wilson policies are all right for heaven but unsuitable for earth. But surely the Colonel knows the Lord's prayer."—Chicago News.

Yes, but the Lord's prayer was not incorporated by the last National Democratic platform—though Mr. Bryan had the framing of it—and don't you recall that Mr. Wilson told the Suffragettes he would not go outside the platform on no accounts whatsoever?—Courier-Journal.

## THE WHYS AND THE WHYFORES

Brother Rockefeller, among his many practical philanthropies, has established a million-dollar fund for research work of benefit to us humans. The government is helping the hogs and the sheep, so Brother John thinks he might as well be the goat and do something more for us lambs.

You all one time or another, have been amused by the factory picture that looked like it covered 149 square miles, had a forest of stacks heeling volumes of dense black smoke, and a million windows, and apparently housed 65,432 employees? One concern has already been driven to say under its illustration: "All buildings here shown are part of our works." Good scheme, and enlightening.

## "Imperator" Is a New Ship—Headline.

Before her recent extensive alterations she was said to be "tender" (likely to roll.) It's pretty tough for a new ship to be so tender that it takes a roll of 5,000,000 marks to keep her from rolling. Another alteration has provided better accommodations for the firemen. That's real human in a world, where firemen are commonly considered—well, just firemen until they jump overboard. Then they are crazy.

Your Uncle Billy waxed eloquent to The Skipper, our fellow editor, about the hardships of the war photographers. Skipper said it was no cinch to get pictures in a power plant either. On a recent skirmish into Pennsylvania, he (200 pounds in the shade) had to scale a five-story building, had a new dollar derby sniped by a hidden pipe, his glasses were shot from off his face, and a hole burned in his pants. All of which seems to prove that Peace hath her damages no less destructive than War.—From Power.

QUICK, WATSON, THE NEEDLE.

"One of those Nobel prizes ought to go to Luther Bar bank."

"Why so?"

"Who is doing more for peace?"

The proceedings seeking Harry K. Thaw's release on bail reached the United States Supreme Court.

Seven are known to have been killed and a dozen more injured in the fierce tornado which swept over Iowa Friday night.

## MUNICIPAL MADNESS.

Municipal madness is a mild term to apply to financial follies of American cities during the last fifteen years. Their palpable failure as operating units, from a financial standpoint, is absolutely plain. It is unnecessary to consider the efficiency with which money has been spent. That is another story entirely.

Everyone knows that a mortgage is something which matures and has to be paid. Comparatively few realize it. Municipal debts are mortgages of the hardest, most irrevocable kind. The small taxpayer or the non-direct taxpayer refuses to bother about the subject. He usually believes that the financial burden escapes him entirely and falls on someone else. Of course he is mistaken.

A municipal debt is a leech upon the people—all the people—even to the meaneast and poorest inhabitant; clear to the children in arms and usually upon the children of unborn generations.

Most politicians and officeholders favor or more public debt. It means greater funds for them to handle; more responsibility; opportunities for visible achievements; reasons for higher salaries.

The people realize nothing of the unsound economic and financial methods which underlie the government operation of their cities. Many cities annually emit great volumes of costly printed matter. So far as the ordinary citizen is concerned this stuff means nothing. He would need a long vacation and a trained accountant to give him an inkling of the facts the reports contain. The census bureau experts had to haunt city halls far weeks to get approximately the information desired by the government.

If the people understood what was going on they would curse every proposal to increase municipal debt. They would at once start to make effective a policy of the closest restriction of municipal government activities, based upon the broad principle of confining government to its narrowest limits—government for governmental purposes strictly.

One hundred and forty-six American cities of more than 30,000 population—New York included—dealt with by the government in its report ending with 1911, grew 31.5 per cent, in the ten preceding years. But the cost of local government grew 41 per cent per capita. Debt and expense beat growth by a big margin.

At the close of 1912 every man, woman and child in New York City stood pledged for \$156.57 of net municipal debt. Jointly they owed \$1,773,321, 913. They had established what is probably a high water mark in the history of the world. New York has set a record far in advance of other American cities. The per capita net indebtedness of the 195 largest cities of the country in 1912 averaged \$68.75. New York has the average beaten twice over. It is in a class by itself.

The national debt of the world increased 20 per cent, in the last ten years and doubled in the last 40 years.

American cities, therefore, have not been alone in their spendthrift habits. But they seem to have played the game harder, plunged deeper, tied up the productive ability of unborn children in a greater extent than other nations.

Nor has the tendency started to decline. In the first three months of 1914 the cities, counties and states of the country sold more permanent bonds than ever before in the first three months of any year. The total was \$146,955,578 for the three months.

In 1912 and 1913 the scarcity of free capital and the consequent high interest rates for money, made it hard to sell municipal bonds. Many cities failed to sell large issues and postponed their sales for a more propitious market. The market came this year because of the exemption of municipal bonds from the income tax, extraordinary depression in trade and the resultant piling up of capital in the banks. The atmosphere for municipal borrowings changed. Cities are taking advantage of it to go further into pawn. The year 1914 will doubtless be a record year in the swelling of municipal debt.

While the debt of the United States government per capita has been going down, the financial obligations of the larger cities have been going up. . . . In 1912 the net indebtedness of the nation exceeded the net indebtedness of the 140 cities by 7.7 per cent; ten years later the cities owed 77.5 per cent, or \$787,344,747 more than the nation. In other words less than 27, 000,000 people voluntarily assumed a financial burden one and three-fourths times as great as that pledged by 94, 000,000.

The point to these figures and comparisons doesn't lie in the totals. It rests in the fact that the debt of the cities increased more than three times as fast as their addition of population. The population grew 31.5 per cent, in the ten years ended with 1911; the mortgages upon the people 100.3 per cent.—William H. Hodges, Public Service, for June.

### HIRSCHFELD SHOE FACTORY

What Pluck Has Done for One Maysville Man—Factory Gets Order for 10,000 Pairs of Shoes.

Very few Maysville people are aware that Maysville has such a large and well-equipped shoe factory as that of Mr. M. R. Hirschfeld, whose new establishment is situated on the beautiful bottom South of Forest avenue. Mr. Hirschfeld's former factory was practically ruined by the flood of 1913, his losses being thousands of dollars. But with Ten-ton pluck and American determination, he bravely set to work and tore his entire old factory down, and purchasing a new and ample site South of the Avenue, erected a new factory, complete, substantial and imposing, three stories high, equipped with the latest machinery, with both gas and electric power and lighted with electricity.

The plant is so far above the flood line of 1913 that Mr. Hirschfeld can well-nigh defy the yellow water to come and get him.

This plant is so elegantly situated that it is a wonder that others below the flood line do not remove to the high ground.

Mr. Hirschfeld is employing about 25 hands now, most of whom are women.

He has just booked an order for 10,000 pairs of all leather shoes from a Cincinnati jobber, with more to follow. The "wooden shoes" he manufactures have only thick, wooden soles, the uppers being made of leather. These wooden sole shoes are used in dairies, breweries and other places where there is much dampness.

It will pay any one to visit Mr. Hirschfeld's new factory.

### DELIGHTFUL

Were Senior Class Day Exercises at The High School Yesterday Afternoon.

Interesting beyond measure and extremely delightful were the exercises given by the graduating class yesterday afternoon at the High School Auditorium. Parts in the "Class Day" program were taken by those not in the class play, and the manner in which the young people acquitted themselves, the originality and shrewdness of their papers, reflects them much credit. The program rendered was as follows:

Address to Undergraduates—George Baner, president of Senior Class.  
Responson—Herman Calvert, president of Junior Class.  
Introduction—Daisy Chalkey.  
Class History—Helen Stevens.  
Last Will and Testament—Mary Wheeler.  
Calendar—Elizabeth Higgins.  
Piano Solo—"Romantic"—Mary Matthews.

Class Poem—George Richmond.  
Prophecy—Lena W. Lykko, Nellie Grant, Anna Calvert.  
Caricature—Emma Dehold.  
Donors—Ernest Ziegler, Anna Calvert.

### FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.

Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

CHRISTIAN CHURCH ELECTS OFFICERS NEXT SUNDAY.

### Public Sale

We will sell at Public Auction at 2 p. m., Saturday June 20th, the Suburban home of Mr. D. A. Emmett, located on the Maysville and Germantown turnpike just outside the city limits. This is a nice two story frame house of seven rooms with bath and water in the house, also small house on corner of lot that rents to good advantage, together with about two acres of land. There is a variety of fruit of all kinds on this place. A splendid place for chicken raising and truck gardening. Mr. Emmett has bought a farm and moved his family to it, and has decided to sell this very desirable home. With the extension of the street car line in the West End, and the many improvements that are going on in this section of our city, we think we can see a fine opportunity for an investment in this West End property. This home will be sold on easy terms which will be announced on day of sale. Here is your chance to buy a nice home at your own price.

The prize winners were Mrs. Eugene Merz and Mrs. Wright.

### NEW COUNCIL CHAMBER

Beautiful Improvement—City Alms House Undergoes Transformation In and Out.

Two new improvements have been made by the city during the past two months that have added greatly to the assets of our municipal buildings besides correspondingly increasing the architectural merit of the buildings in question and bettering the tone of the public buildings of the town in general. We refer to the refitting of the Council Chamber or Police Court and to the general reconstruction of the grounds of the Alms House and the remodeling and painting of the interior of that house of the city's charity.

About \$2,000 of the city's money has been well spent in improving the Alms House, in making the conditions surrounding the lives of our municipal dependents as comfortable as possible. To this end parts of the interior of the building have been remodeled and reconstructed, the whole inside painted and frescoed, the lawn which slopes downward from the house and gives it an air of loftiness and import has been terraced, stone steps added, over 400 yards of cement walk laid and the necessary retaining wall built.

This work was done under the guidance of the Alms Committee composed of Patrick Gantley, chairman; Oliver Greenlee and Godfrey Hunsicker, with George W. Crowell as actual supervisor. Mr. Crowell is one of the City Dads and should be given great credit for lending this work his time and service, which he did at an almost negative cost. The committee deserves great commendation and have abundant cause to be justly proud of what it did.

That part of the Court House, which is used solely by the city government, known as the Council Chamber or Police Court and which comprises in addition to the chamber room the offices of the Mayor, City Clerk, Chief of Police and Police Judge, has needed a reconstruction and general "fixing up" for a long time. It has received it now, is not only in tiptop shape but has a truly beautiful appearance. We are very glad; the city officials whose headquarters are there are delighted and any citizen that steps into the rooms is immensely gratified.

From being a decidedly dark place of rather uncertain color and fixtures the Council Chamber has been transformed into a place well painted, with new clean furniture, excellent wall papering, fine ceiling, with a floor partly marble and up-to-date fixtures, all presenting an effect of pleasing appearance and comfort.

A detailed list of the improvements gives:

Council Chamber—Marble floor, new seats, new chairs, new railing, new Judge's desk, wall paneling, stool ceiling, swinging lights, and new table.  
Judge's Office—Library table, chairs, office desk, paneling and rug. All furniture of this room is of quartered oak.  
City Clerk's Office—New table, chairs and general fixtures.  
Mayor's Office—New general fittings.  
Chief of Police's Office—New table of woodwork and rug.

## GREAT MEETING AT CHRISTIAN CHURCH LAST SUNDAY.

The morning services at the Christian Church were very good. The exercises were very impressive. The Sunday School had an attendance of 245 and an offering of \$119.92. The aim was to reach the \$150 mark so as to pay one fourth of the salary of the County's Missionary in China. Those of the school who did not contribute will likely have a part in this and so enable the school to have this amount. Opportunity will be given next Sunday to those who desire to give.

The amounts given by the different classes are as follows:

Primary—\$11.15.  
Junior—\$12.70.  
McDougle's Class—\$3.15.  
Bowling's Class—\$2.50.  
Dickson's Class—\$5.16.  
Huselman's Class—\$8.00.  
Scott's Class—\$8.05.  
Frazier's Class—\$7.01.  
Frank's Class—\$11.00.  
Stahl's Class—\$27.50.  
Officers—\$10.00.  
Total—\$119.92.

## G. A. R. ENCAMPMENT

Kentucky Veterans To Meet At Barbourville Tomorrow.

The thirty-second annual State encampment is to be held at Barbourville on Wednesday and Thursday, June 10 and 11.

Capt. Ed Farley, of Paducah, former State Treasurer, is a candidate for commander, and as he has practically no opposition it is expected that he will receive this honor, and Capt. John T. Gunn, of this city, it is believed, will be elected senior vice commander.

John G. Eve Post, No. 231, of Barbourville, will be host to the visitors. The address of welcome will be delivered by Circuit Judge F. D. Sampson; the response will be by Department Commander W. J. L. Hughes. The Sons of Veterans will be represented by Capt. Ben H. Golden, of Barbourville, commander of that branch, who will also deliver an address. W. M. Ramsey of Louisville will respond to Capt. Golden.

## ROSY AND PLUMP

Good Health From Right Foods.

"It's not a new food to me," remarked a Virginia man, in speaking of Grape-Nuts.

"About twelve months ago my wife was in very bad health, could not keep anything on her stomach. The Doctor recommended milk, half water, but it was not sufficiently nourishing.

"A friend of mine told me one day to try Grape-Nuts and cream. The result was really marvelous. My wife soon regained her usual strength and to-day is as rosy and plump as when a girl of sixteen.

"These are plain facts and nothing I could say in praise of Grape-Nuts would exaggerate in the least the value of this great food."

## CUBS DEFEATED

By Castoff Pitcher Linson By the Score of 9 to 3—Thompson Knocked From Mound in First Inning.

The Chillicothe Babes, with Linson, a pitcher that was turned down by Maysville without a fair trial, defeated the local club yesterday by the score of 9 to 3.

Mistah Thompson started the game for the locals and fanned Corbin and Parmelee, the first two men up. Then the balloon went up. Shovlin knocked a homer, Nesser a triple and Eisel and Hontz scored singles, good for two runs. Thompson was yanked at this point and Griffin went in. Friend ended the swatting by bounding to Emery and was thrown out at first.

With two out in the fifth the Babes scored three more. Eisel singled and scored on Hontz's triple to left center. Friend singled to center scoring Hontz. Friend stole second and Newham walked. Linson hit to Emery and then threw wild to second, the ball getting by Dieterich. Friend scored on the play. Corbin died to Ellis.

Chillicothe got another tally in the sixth on Shovlin's triple and Nesser's sacrifice fly.

The Cubs made their only tallies in the seventh. Hontz walked and was forced at second by Griffin. Badel fanned to Nesser. Chapman walked and Curtis doubled down third, scoring Griffin. Emery tripled to right scoring Chapman and Curtis. Donovan bounded to Parmelee and was thrown out at first.

Chillicothe made things sure by adding three more runs in the ninth after one man was down. Eisel singled to right, Hontz walked. Friend singled to left center scoring Eisel, both runners advancing a base on the throw to home by Ellis. Newham sacrificed to center scoring Hontz. Linson singled to right scoring Friend. Corbin died to Donovan.

New Haven Inquiry to end next week.

Failures in United States during last week 230 against 230 for previous.

Deafness cannot be cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a rumbling sound in your ears, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless a course of treatment is applied by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Sold by Druggists, 75c.  
Take Hall's Family Pills for constipation.
